

Planning and resource workflow checklist

Use this checklist to move from learning goal to reviewed classroom resource.

Checklist

- Write the learning goal before choosing the resource format.
- Add prior knowledge, vocabulary and misconceptions.
- Generate the lesson sequence first.
- Create supporting resources from the same context.
- Check answers, timings and accessibility.
- Save the reviewed sequence for future adaptation.

Quality check

- 1 Does every activity connect to the learning goal?
- 2 Are examples accurate and age-appropriate?
- 3 Is support helping access without lowering expectations?
- 4 Are answers and success criteria correct?
- 5 Could another teacher use this with minimal explanation?
